Dear Sarah

Volunteer Decorating

I wish to record a huge and sincere THANK YOU to all those who worked so hard this week transforming one of our children's/young peoples counselling room as well as some of the office spaces on the top floor of our building. You all did a tremendous job despite the clutter and obstacles and have really made our premises look special and welcoming to our service users.

On behalf of our Trustees, Patrons and service users, we would like to commend and acknowledge the effort, commitment, and selflessness that went into the task. I think the work done by you, Thomas Dickson, Rob Griffin, Lisa Burke, Owen Foulkes and Jordan Nasser are worthy of acknowledgement not just by us but by your company. You have all represented your company in an outstanding manner which I assume reflects the ethos of Essential Money Ltd. I would be proud to work alongside any of you!! Thank you!

Through your kindness you are helping many children who have experienced the worst event in their life due to the bereavement of a loved one, and parents who have suffered the death of their child, often through sudden unexpected and tragic circumstances. Many of them feel unable to continue in life and lose all sense of hope and a future. Through our work we are giving them the chance to dare believe again and have the possibility of a full life complete with the choices, hope and opportunities we should all be able to enjoy.

I am humbled at the huge depth of compassion you all have for the needs of others. You seem determined to circumvent the politics, trends and prejudices that prevent people from being able to access the solutions to their needs and enjoy a quality of life. I can only admire and applaud your hard work in helping to make the difference they need.

Thank you all wholeheartedly.

Jeremy Walker
Director of Business Development
